Dear Sir:

This is in response to the Office Action dated August 16, 2004, setting a three-month shortened statutory period for response.

Summary of Response

Applicant notes that the Patent Office has issued an office action on the wrong case. The office action for this case must have been meant for another case. This was discussed with the examiner of record who agreed to reissue a new (and correct) action in this case, restarting the period for response. This document is to provide written documentation of this conversation.
